TOWN PRAISES JUROR.

Man Who Said Death to Alleged Rape Fiend Is Honored.

Russellville, Ky., Oct. 12.—In the case of John Lyon, charged with criminally assaulting Mary Gladder, the jury was unable to agree, eleven being for a ten year sentence, and one, the foreman, for hanging.

Immediately following the dismissal of the jury the foreman was bedecked in gay colors and paraded for hours about the town. It was a remarkable demonstration of popular sentiment.

YUKON'S OUTPUT \$6,000,000.

Gold Shipments Made for the Season of 1905.

Vancouver, B. C., Oct. 12.—According to a despatch from Dawson Tuesday, the gold shipments of the Yukon Territory for the season of 1905 just closed will amount approximately to \$6,000,000. It is estimated that half or more of the Fairbanks' output has gone to the coast this summer by way of Dawson.

The Times' Daily Short Story.

His Own Judge

(Original.)

What's that you say—a man shows bravery or cowardice, like any other animal? It isn't so. All animals are prone to fear, all throw off fear when enraged, but in man is something higher—pride—and if at one time animal fear gets the better of him at another he will show a courage that is godlike.

When the Spanish-American war came on I hadn't seen any fighting since the big scuffle that ended in 1895. I raised a company to go to Cuba, and fortunately my regiment wasn't left behind when the fighting force went to Santiago.

At our first fight in Cuba nearly all the enlisted men in my company were raw recruits. There was a good deal of wavering, and some of the boys—they were mostly nothing more than boys—got away to the rear in spite of my efforts to hold them. Knowing that I was watching them, they all tried to stand up to the racket, but it was pretty hard for some of them, and they dropped out one by one. There was one young fellow, Raymond—he couldn't have been more than nineteen—a refined, delicately made chap, more like an musician, an artist or a poet than a soldier—who, it was plain, had more trouble to keep his legs from carrying him away than the rest. He stood his ground till after the skulkers had been weeded out, when a volley fired directly in our faces was too much for him, and he fled ingloriously.

After while most of those who had dropped out returned to the ranks, among the first Raymond. But by this time the fighting was about over and they had no opportunity to retrieve themselves. I was easy with them, knowing that they had been taking their initiation and would do better next time. I noticed that Raymond was very badly cut up at his failure and, taking occasion to speak to him about something, spoke with especial kindness. But as time passed, while the others did not seem to feel their disgrace very keenly, Raymond grew more morbid over his. I was sure at the next fight he would redeem himself and feel better about it.

We happened to miss the fighting for some time, being held in reserve, but the next time we were called on we got into a terrible lull. My company was sent one night to reconnoiter, and the first thing we knew we found ourselves cut off. I called for volunteers to go in different directions and find from which direction the enemy were coming to take us, at the same time looking out for an avenue of escape. Among the first to step to the front was Raymond. I sent him out with five others, all in different directions. We were lying low in some bushes, and I whispered their instructions. They were expected to crawl on their hands

FEAR WILSON'S GOATS WILL BRING BACK FEVER

Secretary's Proposed Importation of Malta Criticized by Medicine Men.

Washington, D. C., Oct. 12.—In connection with the proposed importation of Maltese goats by Secretary Wilson to supply milk for babies and invalids, surgeons of the army and navy declare that he is running desperate chances of inducing an epidemic of Malta, Mediterranean or rock fever, as it is variously termed.

The fever has existed on the shores of the Mediterranean, in India and the Orient, the Philippines and the islands of the South Pacific, and has so far failed to yield to medical treatment. The medical fraternity believes the disease is transmitted almost altogether through the milk of goats which browse in the regions subject to visits from the fever. Goat milk plays in the spread of the disease nearly as exclusive a part as the mosquito is believed to do in the spread of tropical malaria and yellow fever.

FEVER DYING OUT.

Jack Frost Comes to Rescue of Stricken Southern Cities.

New Orleans, Oct. 12.—The weather bureau announces frost as far south as Fort Smith, Ark., last night, which will begin the ending of the quarantines. There are good prospects for frost still further south.

There were only eighteen new fever cases and four deaths Tuesday. General oiling, inspection and fumigation have been discontinued and much of the sanitary force discharged.

BACON SUCCEEDS LOOMIS.

New Yorker Sworn in Yesterday as Assistant Secretary of State.

Washington, Oct. 12.—Robert Bacon of New York took the oath of office and qualified as assistant secretary of state yesterday. Francis B. Loomis simultaneously vacated that office. The ceremony, which was simple, took place in the office of the assistant secretary, the only persons present being Mr. Bacon, Mr. Loomis and Mr. Dean, chief of the appointment division of the state department, who administered the oath of office.

TO TAKE OVER KOREA

Japan It Is Said Will Soon Assume Full Control.

MINISTERS WITHDRAWN

May Use Army to Overcome Korean Resistance—Czar Reserves the Few Questions for Douma.

Victoria, B. C., Oct. 12.—A despatch from Tokio by the empress of Japan states that a stern Korean policy is to be adopted by Japan, following the announcement of the Anglo-Japanese treaty. Korean publicists state freely that since the treaty guarantees the freedom of Japan in its prosecution of its Korean interests, the shadow of a Korean Government will shortly be swept away and practical suzerainty over Korea established. Several Japanese papers state that foreign ministers in Korea will probably be withdrawn shortly. A Yokohama paper says a part of the Manchurian army may be quartered in Korea instead of being withdrawn to Japan, as a concerted uprising of the Koreans, abetted by officials of the Korean Government, is considered too imminent a possibility to be treated lightly. The recent attacks upon Japanese administration in Korea by two newspapers, published by Americans, at Seoul, have angered Tokio politicians, and there is a demand for their suppression.

Mr. Hurlbut of the Korean Review, according to advices by the empress of Japan, makes grave charges against the Japanese administration in Korea. He says thousands of Korean peasants are threatened with starvation and heart-rending scenes are occurring daily. The peasants are dispossessed of their lands without compensation.

MINE SINKS STEAMER.

British Craft Hits Torpedo and 15 Are Missing.

Tokio, Oct. 12.—A report has been received at Moji that the British steamer Leho struck a floating mine, 90 miles east of the Shanghai lighthouse, on Sept. 30. Of the crew and passengers 15 are reported missing, among them two foreign engineers.

The Norwegian steamer Arnfrid and the German steamers Kowloon, Hans Wagner and M. Struve, have been captured by the Japanese at various times recently while on their way to Vladivostok.

SEIZE GERMAN SHIPS.

Japanese Take Vessels Suspected of Carrying Contraband.

Tokio, Oct. 12.—The Japanese Tuesday seized the German steamships Emstruve and Hans Wagner, the former off the port of Fusan and the latter off Nishima Island. They are alleged to have been carrying contraband.

STATUS OF JEWS.

Russian National Assembly to Settle the Question.

St. Petersburg, Oct. 12.—Emperor Nicholas has decided to turn over to the national assembly the final settlement of the question of the abolition of the restrictions on Jews being admitted to the universities, with other general legislation relative to the status of the Jews.

In reply to a petition from the faculties of the St. Petersburg and Moscow universities advocating the unrestricted admission of Jewish students submitted to him by Gen. Glasoff, the minister of education, the emperor has notified the faculties of the above decision, and at the same time, pending the action of the national assembly, he has authorized the admission of Jews who are applying this year in excess of the legal percentage.

The ministry of education is elaborating a bill providing for the removal of the restrictions on the admission of Jews to the universities.

ALICE SLIGHTED.

Gen. Corbin Asserts Minister Rockhill Was Discourteous.

Victoria, B. C., Oct. 12.—Mail from Japan just received contains a Manila despatch to the Japanese Advertiser of Yokohama, which says that General Corbin severely censured United States Minister Rockhill at Pekin, charging him with dereliction of social duty in the provision made for the reception and entertainment of the president's daughter and her party at Pekin. The Advertiser says:

"Execrable mismanagement of the reception and direct discourtesy on the part of the minister are charges freely made. The returning party say the marked scantiness of attention paid them was sufficient to elicit surprise from the various legation staffs of the other Pekin embassies."

Riksdag Committee Favors Treaty Ratification.

Stockholm, Sweden, Oct. 12.—The special committee of the Riksdag appointed to consider the Karlstad treaty yesterday, unanimously reported in favor of its ratification.

Moscow Strike Spreading.

Moscow, Oct. 12.—The strike of the factory workers continues to spread. The workshops of the Brest railway are now involved, the strikers having compelled numbers of the employees to leave work. The railway shops are cordoned by troops.

DANGER AVERTED.

If a man should cross a deadly snake in his pathway, he would quickly crush it beneath his heel before it could sink its poisonous fangs into his flesh. He would not stop out of the way and temporize with the dangerous reptile. And yet how many people are there who temporize

with a still more deadly enemy—consumption. Like a silent serpent, it glides along almost unnoticed. First a cold, or sore throat, then a slight cough, then catarrh, then bronchitis, then bleeding from the lungs and finally death. The way to crush out the threatening evil is to fortify the system and purify the blood with Dr. Pierce's Golden Medical Discovery. Every weakness and abnormal condition that precedes consumption is cured by this non-alcoholic remedy. At the first sign of derangement of stomach, liver and blood, look out! It is only a question of time until the lungs will be attacked through the impure blood, and then the danger will be most deadly.

It should be known to every sick person that Dr. R. V. Pierce will give carefully considered, fatherly, professional advice by mail to all who write him at Buffalo, N. Y. No charge or fee of any nature is asked.

Mr. Moses Horner, of Stahlstown, Penna., writes: "Last fall I took a severe cold (the result of wet feet) and this brought on catarrh and bronchitis which lasted all winter. I used three bottles of Dr. Pierce's Golden Medical Discovery and two or three vials of the 'Pleasant Pellets,' also one package of the 'Sage's Catarrh Remedy.' I am now cured. Many thanks to you."

An honest dealer will not try to persuade you to take a worthless substitute in place of the 'Golden Medical Discovery' for the sake of a little added profit.

Hapgood Arraigned on Libel Charge.

New York, Oct. 12.—Norman Hapgood, an editorial writer on Collier's Weekly, was arraigned here Tuesday on a charge of criminal libel preferred against him by Justice Joseph M. Deuel of the court of special sessions. Mr. Hapgood was held in \$500 bail for the grand jury.

The entire matter is an outgrowth of the Town Topics scandal, in which a solicitor in the employ of Town Topics and Colonel Mann, the principal owner, figured conspicuously in the papers for several weeks. Collier's Weekly took up the cudgels for "civil righteousness," and for several weeks bitterly attacked the methods of Town Topics, and spared neither Colonel Mann nor Justice Deuel.

SENTENCED FOR LIFETIME

Benjamin Williams Who Shot Burlington Policeman.

HE SHOWED NO EMOTION

Didn't Answer When Asked if He Had Anything to Say—Sentence Pronounced in Chittenden County Court.

Burlington, Oct. 12.—Benjamin Williams, the slayer of policeman McGrath, was yesterday afternoon sentenced in county court to pass the remainder of his life in the state's prison at Windsor. He received the announcement of the penalty with as much indifference as though it were 10 days for intoxication.

He was sentenced during the afternoon recess in the Peters vs. Brodie and Kelley case. Williams was called upon to sit inside the bar by Judge Haselton and he obeyed promptly. The court then asked him to stand up. The prisoner obeyed. He remained perfectly mute when the question was put to him if he desired to say anything before sentence was pronounced. After Clerk O. P. Ray came in, Williams was again interrogated, but again remained silent. The life sentence was then formally pronounced, and the mittimus ordered issued. The prisoner seemed somewhat nervous but otherwise betrayed no emotion.

Afterward his counsel, J. E. Cushman, stated that he had interrogated Williams twice at the jail and once yesterday afternoon as to whether he should take advantage of the exceptions noted during the trial and had received no replies. Mr. Cushman stated that he told Williams the exceptions would not be saved unless he consented. He said he made this statement in court as there could be no misunderstanding.

This will undoubtedly be the end of the case and Williams will soon be on his way to Windsor.

MAY BREAK DOWN.

Relatives Hurry Coachman's Victim to West to Rest.

Montclair, N. J., Oct. 12.—Cut to the heart by the deceit of her coachman "husband," Henry Gill, who had a wife living when he married Cordelia Hatch Dearborn at Brookline, Mass., last week, the deceived heiress has gone West in the care of her mother, Mrs. Emily N. Dearborn, a wealthy widow of Orange road, this town. She is on the verge of a nervous breakdown, and it is feared she may lose her mind if not given a change of scene at once.

Steps have already been taken to annul the Brookline marriage on the ground that Gill has a wife living in New Hampshire, the newly-made bride consenting to civil proceedings.

No effort will be made by the family to prosecute Gill unless he should show his face in Montclair or attempt to see Miss Dearborn.

"I learned to love this man," Miss Dearborn admitted in an interview Tuesday night. "He seemed so good and kind, so attractive, that I thought he was a splendid young man in spite of his occupation. That he was a coachman did not lessen my love for him."

"But I will never forgive him now," she sobbed. "I will never forgive him for this cruel deception he has practiced upon me. Just as soon as I became convinced he really had another wife and that he had deceived me I consented to have steps taken for the annulment of the marriage."

The Dearborn home was deserted yesterday. The shades were drawn and the doors were locked. No one was visible.

DROPPED BY FACULTY.

Columbia Football Team Has Lost Its Captain.

New York, Oct. 12.—The faculty of Columbia University announced yesterday that it had dropped from college Capt. George of the football eleven, and that Carter and Starbuck would not be permitted to play in another football game this season. Deficiency in studies was the reason assigned.

The faculty is considering the cases of several other men in the football squad, including Browne, the tackle.

HOW CAN YOU REFUSE?

We are willing to sell you Cal-cura Solvent, Dr. David Kennedy's latest medicine, on an absolute guarantee to refund your money if it fails to dissolve and expel stone and gravel from kidneys and bladder, and cure all forms of kidney disease. HAS THREE WIVES.

New York Painter and Trio Lived in Same Apartment House.

New York, Oct. 12.—Accused of having had three young wives living simultaneously in the same apartment house on Eighteenth street, each of whom believed she was the only wife, Robert Benicker was arraigned in court yesterday on a complaint made by two of them. He is 65 years old and a painter.

The woman who claims to be his first wife, Norma, 19 years old, and Emily, 20 years old, who says she is the second Mrs. Benicker, told the police that a third wife was now in Fall River, Mass., and that the two, while still ignorant of each other's relation to Benicker, were persuaded by him that the Fall River girl was his sister. They said they had both supplied the money which recently sent her back to Fall River.

The woman who says she is the first wife, Norma Benicker, told the police that after her husband left her and went to housekeeping with a second wife in Eighteenth street, she moved to the same house without knowing that Benicker was maintaining another wife there. Emily, who claims to be the third wife, corroborated this story, and said furthermore that she and Norma had been acquainted with each other before their marriage. When they met again in the Eighteenth street house, they said, they discovered that Benicker was husband of both of them.

KING TO SEEK BRIDE.

Alfonso's November Visit to Germany Will Be Gay.

Madrid, Oct. 12.—The palace authorities have been ordered to prepare for the departure of King Alfonso to Germany Nov. 3. The King will remain in Berlin from Nov. 6 to Nov. 12, attending elaborate festivities, a military review and a hunt.

The premier, Gen. Montero Rios, will probably accompany the King, whose departure for Germany immediately following President Loubet's visit to Madrid attracts comment, since the premier's accompanying his majesty indicates that questions of state will be considered in Germany.

However, the King's visit to Germany was arranged long ago, and is generally believed to be connected with the matrimonial projects of the Spanish royal family.
